

INTRODUCING HRD ANTWERP'S - DIGITAL JEWELLERY DESIGN CERTIFICATE PROGRAM

Polish your inspirations into design with the HRD Antwerp - Digital Jewellery Design course. You will learn drawing, shading, design theory, how to illustrate shape and form using new technology technics. Imagine a multimedia world, where images and creativity follow immediate paths, where everyday technology devices become the best means for developing your creative ability.

The digital revolution begins now!

Program Overview:

The HRD Antwerp - Digital Jewellery Design Certificate program provides you the techniques and skills to complete your jewellery design from concept, design specification, usage of basic design concepts, including texture, shape, form, balance, negative space, colour, and more, and understanding the manufacturing challenges.

Upon the 2 weeks completion of HRD Antwerp - Digital Jewellery Design Certificate course, you will have a hand-developed portfolio and a digital copy of your work to showcase to potential employers and clients.

Course Features:

- ◆ Design Methodology
- ◆ Concept research and Mood board
- ◆ Sketching and correct lines
